Nr. Market Drayton Oxon.
Salop.

Dear Mam + Dad,

Nothing much has happened this week and we are still doing ground school although we are expecting to fly this week.

Yesterday we had half a day off, the first since we arrived here so I went to Shrewsbury with a couple of my crew, the navigator Rae, and the Wireless Op. Eastcott, but I do not think much to Shrewsbury it's hardly as interesting as Wellington. While I was down there I sent my laundry so you should have it by the time this arrives. You will find some cocoa in the parcel, one of the Australians had it in a parcel sent to him and

and it is too much trouble to have it washed.

By the way I have not received any parcels since I arrived back from leave so you can guess I need my laundry. I think you ought to go and have that parcel checked at the Post Office and see where it has got to. I hope it was registered.

In your last letter you said my watch had come back, could you send it on to me as I shall need it when I start flying and I shall not be able to come home and fetch it before then.

I think that is all for now I shall write again this weekend as we are not so busy now.

Remember me to all,

Your loving son, Lewis
