Dear Win,

Went up before selection board,
and aircrew medical Friday. Result I
am now once again a member of the
R.A.F. and I report on Mon. 12th at
St. John's Wood.

The educational was jam {it must
have been I got 100% for both my
maths and intelligence papers}. The bloke
on the selection board said if I had
not been in before I could have gone as
navigator but as I had, I'm now
going as Straight A.G. with a recommend-
ation for a commission.

Had to do a damn good test in
one room, they had a arrangement
shaped just like a cockpit of a plane,
with joystick rudder bar and every

thing, and there was a glass chart on the dash board with a small square in the middle, and on this chart was a small dot of light moving in all directions over it. And with the aid of the joystick and rudder-bar you had to keep the light in the square, and it wasn't so easy as it sounds.

So I'm picking up work tomorrow and having a week off, I guess it might be some time before I see you again now, unless or leaves coincides,

Still so I have been told it's a very short course so perhaps in about 3 months I'll have my wing (if all goes as I'm hoping).

I'm damn lucky I shant have to do any square bashing, I've got a document to hand to the C.O. at St Johns Wood saying,

The above named airman has been

3/
accepted for immediate entry to an I. T. W
for training"

So I'm hoping I simply collect
my kit and go straight of to an
gunner's school.

Well thats all the news I have for
now, so,

Cheerio Wm

Best of Luck

Jim {1326802}

P.S. I retain my old number.
