Glams,
S. Wales.

Dear Win,

Sorry I have been
such a long time replying, but
I've been pretty busy these
days.

Well. If my luck holds
good I should be home in
3 weeks time. I been pretty
lucky so far & have only
another 3 subjects to go through
before going on leave; and
boy will that be the day.

2

We went out on the drome Monday and ran up a "Blenheim", 2 engine bomber to you. It was quite good siting there, speeding the engines up & watching various pressure & temperature dial, but unfortunately we dont get that very often.

Well I havent any news for you but I thought I better write before your full wrath descended upon my humble head. (at the moment the aforesaid article is spinning with gears, oil, pressure gauges, props, & bearings)

3. Incidentally the afore mentioned
"Blenheim" is the same type
of crate as that Albert used
to fly.

Well. thats all for now,

Love

Jim
