Raybairling.

Many thanks for your letter received yesterday.

Had a letter from Dad dated the 22nd & he writes that "mother is in hospital, she had her operation yesterday, she seems very sick & down. Expressed a desire to see ^{you} if I could possibly arrange it" So if possible I will get a H8 pass & dash up to see her. Dad is staying at Betty's place could you manage to come with me? I expect Betty could fix you up as well.

Things are very much the same. afraid I haven't much in the news line. Sorry to hear you only received one letter up to Thursday, I can assure you I have written practically every other day.

Did you tell Griffiths that I was in the H⁸ etc, it seems an awful long time to wait.

Regarding leave I note your remarks for the 14th so will act accordingly, will try for an

earlier date, expect it will okay.

I can't understand lay accounts, yesterday I received the enormous sum of three pounds, I must go over & bind them.

Managed to get a swim with Jan
 heather day, it was super, also went to
 Boston last night for a feed etc, afraid I don't
 like Boston very much, there are far too many
 of our type kicking around, personally I much
 prefer Newcastle, it's more like Newark.

I am writing this in my office atm
 & have just got the tip I have a job of work to do,
 incidentally I have been duly appointed a header,
 so from the dizzy heights of same I have to
 administer a caution or so here & there.

God bless darling with all my love

Yours always

Jim
