

CATHOLIC FIRE ORGANISATION

14 August 50

Abitham 4010

Dear Jim,

No doubt you see all my letters not long after they arrive home so there is not much need to go into too much detail re my lounge.

I'm still being punished here waiting to return to the unit & hope for my own sake I'll be back this week. However I have had the same hope each week for quite a while now.

I received your letter dated 28 June a week or so back, which had been readdressed about 4 day times. Did you receive my little booklet on the Mullewa chapel alright. I provide

the booklet to be a very poor illustration for its simplicity & quaintness could never be reproduced. I don't think it states in the booklet that it was designed & constructed entirely by the Priest although I understand he had to employ a helper to erect the bell-tower. Moreover since the booklet was constructed a porchway has been erected leading from the sanctuary to the "PRIEST HOUSE", all of which is built from the same rock in the same quaint manner. The whole of the porchway is lined with statues of B. V. M., Santa Catalina etc.

There are no two ways about it, this little chapel is definitely intriguing.

What is the position with Dad's health? Is it in any way serious?

Please God hell soon be his old self again.

3

19.....

Naturally it is months since I last saw the Bradenb but no doubt I'll see him again when I get back to the Bole & will pass on your message. Since leaving I have been well off as far as Mass ~~was~~ ^{is} concerned. At Claremont we had Mass on both the Sundays at the N. M. C. A & here the C. W. O. is a beautiful building & of course there is at least one Mass each Sunday. During the week there is a curtain drawn at the rear of the stage. It is raised on Sundays to display a very nice ~~maple~~ mahogany ^{table}. The building itself is very nice, tiled roof & an interior almost resembling a hotel writing room it is so modern & so well equipped, as also are all the other huts. This latter is an example of the way they do things over here.

Did you get ^{4.} to the Halloran's Ordnance?
Apparently they are keeping you pretty
busy. You certainly must have had
some rain over there; the weather
here is simply wonderful. I'm glad
to hear C. G. are still battling on &
hope the school cleared up the books
the High. Things are at a low ebb
when girls' basketball have taken
the limelight.

You evidently have the wrong impression
of our "camp" & "camp hospitals". Think of
it this way! Imagine it if about 200
hundred trucks drove off the road into
a fairly wooded & well camouflaged area
such as "Chestnut Hill". Knocking &
cutting down ~~the~~ saplings or trees
in the way, clearing the undergrowth
here & there in order to erect a tent &
chopping down trees to make tent poles.
First thing each man does is dig a slit trench
for himself about 3' deep & long enough to lie
in flat out - this is done immediately whenever
the alarm

19

5

As soon as the tents are erected & drains dug about them, a party is sent to dig a latrine about 10' long by 3' wide by 8' deep. ~~Then~~ Another party helps erect the kitchen portable stove, trench fire etc, whilst another gets wood etc. Another gets the office in ship shape and whilst machine gunners set up their ack ack defence usually in a circular trench about 5' in diameter & 4 to 6 feet deep; this usually takes a while & is carefully camouflaged & always manned. We sleep on ground, usually fully dressed & in general live like pigs on rotten tinned & crock water, carted many miles. Of course at present this camp is much better fitted & more elaborate than any over East, but the speaking of battle station.

the "camp hospitals," ^{6:} the D.S. (Medical Dressing
Station & C.C.S. (~~Camp~~ ^{Casualty Clearing} ~~Casualty~~ Stations) are
many miles behind lines & apart and
are merely a collection of tents, with
a limited supply of medical equipment.

You probably know I intended to
~~try to transport to Bury for the sever~~
a wonderful opportunity in the offing in
this land of opportunities. However ~~although~~
Dad's consent is lacking, after I rang home
last week to ask him to send it on, I
was wondering if you had anything to
do with either his report or anything
in the matter. It is ~~now~~ ^{too} late
this time & I'm letting it go, but I don't
intend to do so again, for they don't
bother checking the age given on the
same given.

You must realize by now that
the war is not going to be one by
concentrating troops on our shores
waiting for the enemy to take us
by surprise.

DO NOT WRITE TO: The names of your ship or other ships in the convoy or the date of sailing; parts of call or probable destination; the description of troops; or any other information which, if intercepted, would be of value to the enemy.

"The Army that serves on every front"

1

The only method of defence is attack & the only
realistic if too better. It has been arranged
to me in ~~any~~ ways lately. If I can't get into
a bag, I'll try an crew. To stop me I'm afraid
you'd have to produce some pretty convincing
argument, for I'm itching to see a bit of action
& yet the thing don't suit. I feel that my
abilities are negligible & I'll ~~transfer~~ to the back
if my attack efforts are unsuccessful.

At present I'm in the field touching the ground
at about 11.9 & my muscles are ruffling. Our
daily routine at present is as follows. Revell's 0600,
"Blitz" Parade 0600, 10 min. run round area, Break
0730, Parade/fully polished up & slaved left over and
0800 - shower solid P.T. without a break & nearly
ready to drop - 10 min "smoke" - 24 hrs machine
gun instructions & lectures by returned men. We
commenced about march at 1/2 to 2 & march solidly
till 5-30. The country side is very hilly & rocky
but very picturesque & the weather perfect. Each
afternoon will cover between 12-15 miles & are kept at
it all the time.

Our ^{new} instructors have all been in the thick of it
overseas, some wearing decorations. The ^{most} is working.

many soldiers, but know their onions through
 little experience. However we work twice as hard
 for that though our previous load was all old
 chaps stationed here since the beginning of the
 war & who talked a lot of copy book stuff, that
 was all honey these new men are Australians to the
 bone, are real white men & are very popular. The
 ones also at present are terrible after what we've been
 having & I'm spending quite a bit at the canteen on
 pies, cake, biscuits, coffee & occasional quins,
 & cigars & films & ted milk etc? ~~But~~ I don't
 buy any more, I should resist although it is a bit
 of a habit. I don't know how long I'll have to
 do without more when the tin goes down. What
 emphasis on the cold I might add that I lost under
 the cold shower immediately we are dismissed from
 the route march each day. After it however I
 feel quite warm & refreshed although it certainly takes
 the heat away.

Well, fine. I'm feeling the need of a snooze &
 had better make for bed. I might add that, whilst
 thanking you sincerely for your remembering me,
 I don't forget the rest of you although my surroundings
 aren't the best. The last two Sunday nights I've been
 lucky enough to be in a position to get to Rosary Mass
 at St Joseph's (Whitman). I have beads, prayer book (supplied by
 St Michael to all Rev. Catholics) & a pretty bag (thanks, Mrs. G. & M.)
 to miss I should be equally well pleased for anything. Besides
 we will see to see how Dr. Dr.
