Dear Mrs Ellis,

I was in training with Lewis at Scarborough and while he was in Canada I was in America and we wrote to each other. Since I came back to England I haven't heard from him nor got his address so if he is still overseas would you please send me his address or if he is in England ask him to write to me here.

I wish you would do this since I still know where most of the I.T.W Flight are while Lewis will have lost touch with

them.

Yours sincerely,
Harry Rogers.
