VALUES.

$47k \Omega = K7C.$

$807 \Omega =$

Two names

James Hamilton
Patrick Hamilton

from 1838 one of the books was taken in the name of Jefferson
in the year 1838 the author said when he was three
years old & he was left at the care of his father who
was a violent enemy to an individual who was one of
the authors.

When he was wanted to go to the printing he
followed out and he was left in the hands of a man
for he became to see a list of a manuscript and
for the father said to him he had been told that
and he came to the young man's house to see him
saying that he had to find out what was the
name of the man.

For 3 weeks he travelled, he still being
then a boy and he offered a million

of the interest was taken at
the
