TRANSPORT. Will leave from the Sports Section at 15-40 hrs at 10 minute intervals, for both teams and spectators.

RUGBY CAMEO. As I happen to be the "Joe", the task of writing a few words about the sporting and social activities of the Station Team has been "Dunked" on me.

As per usual there are numerous Welshmen in the side (this "gen" leaked out), who acclaim the team one of the best this side of Pont-y-Pant

The scrum half an excellent example of the breed, hot from the M. T., is an old hand at binding (especially in the loose). I will make no mention of the team binding when "tight".

This article would not be complete without mention of the bookie and his shirts. I need hardly mention that this gentleman is an old "Naperian". Our stalwart middle of the back row remarks that it's a good thing the second row don't giggle, as he's had his mustache trimmed to a minimum.

'BIL', the man who promised us spectators of the fairer sex, is almost on his home ground at Beth Island. At Mauripur-v-Airtourne game, the "Generals" mentioned to his A. D. C. that he was "Browned" off with drop goals.

There is much enthusiasm for the Xmas Rugger Dinner, and 'I'm sure we shall "Marshall" every "Man".'

On behalf of the team I would like to thank the Captain and all those who have made good rugger possible on this Station.

INTERNATIONAL RUGGER NEWS.

Now that the National Risteddfof has passed and the Welsh Mountain goats have been herded safely to their pens, Dai Lossin's Warriors have been able to resume rugby training on the ash tips of their Fatherland. Full of Saxons, aided by the Celts of the Emerald Isle, and any other helpers.

The battle ground has been prepared so make sure of your grandstand seat. Blood will begin to flow at 16.00 hours to be washed away with beer at 19.00 hrs. (We hope). Bring your sossans, idilycans, empty beer bottles or anything else useful to support your fellow countrymen. (Crutches might be of help). Come and hear your favourite phrases expressed in at least four different languages.

HOCKEY

"ODDS VERSUS SODS"

AT 10.00 HOURS, BOXING DAY, 29TH DECEMBER, 1945.

The undermentioned teams have been engaged at enormous expense, to demonstrate how not to play hockey, on the above mentioned day at the time stated. The goalkeepers will have their legs crossed in socks, and the players of each team will be paired off, and have their innermost legs fastened together "a la" three-legged race. The ball will be a Rugby Ball. After ten minutes of this, a serious game will be played.

Two-anna glasses of tunda pani will be provided free of charge.

During the interval F/L Bauchop will do the Highland Fling whilst F/O Broadbent will do an inventory check of the hockey sticks. When writing up his item he will not forget to write of F/O "Worryan" Whittle.

At the close there will be a short memorial service to P/O "Worryan" Whittle, the captain of Station Eleven, who will by this time have been thrown into the nearest duck pond by his colleagues. Leading Aircraftman "Short" Circuit will officiate at this service, using an inverted washbasin as a rostrum.

Tickets for the game may be obtained from the C. O. between the hours of 0001 and 0600 hours only, and with each ticket will be given a copy of the latest Action Release Group Order Signal, which has not come in yet. Hot Dogs made with Soya Links will be on sale during the game.

GEN ON THE STARS

"SHORT" CIRCUIT. Started his career as a washerwoman, hence his habit of snuffing instead of getting on with the washing. Seems to get in the way of the ball occasionally, and very often helps it into the net.

"WORRYAN" WHITTLE. A bosom pal of Circuit's and Station Eleven Captain (Heaven knows why). Very good at being out of the way when there is any work to be done. Noted for his "pep" talks at half time which leave the boys very depressed. Has been recommended for a Signals course in view of his ability to "telegraph" his five bits.

"CROWNER" CORNFORTH. Started life as a lumberjack in the Sind Desert and still does a spot of "chopping down". Is very fond of holding up glaciers for away matches and leaning on opposing centre forwards.

"BINDER" BAUCHOP. A heathen from over the border who speaks scrambled English. Has been known to hold up several games whilst searching for a lost ek anna piece.

"MARTHA" MAYNE. This bod was spotted by our talent scout selling peanuts outside the Transit Camp Cinema. Spends working hours advising prospective curvie street clients, where to flug their demob suits at cailing prices. Is believed to be a regular.

"WINFRED" WAINWRIGHT. Has been seen in the Wireless Cabin on rare occasions and is hoping to get a permanent pass to go in the place.

"SCROUNGER" SMITH. A utility man from the Servicing Wing. Does a very crafty sandwiching set against opposing forwards with the assistance of "MARTHA" MAYNE.

"CLUELESS KEN". Officer i/c the game. Carries the can for everyone and is chief victim of Circuit's binding. Gets a regular place on the right wing for services rendered, and not for any particular talent with hockey stick. Considered a bit of a dictator in some quarters, but as yet has not been assassinated.
